

# SKURIO DIGITAL RISK PROTECTION

A new approach to cybersecurity

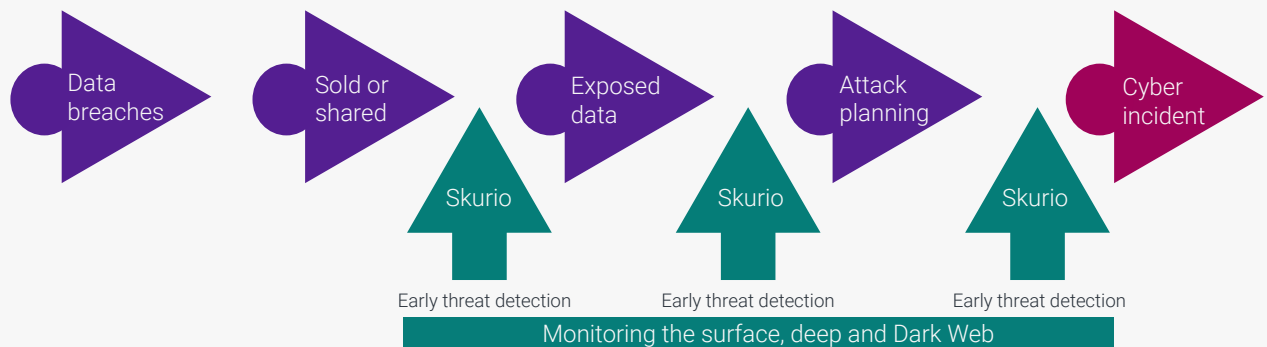

A SaaS platform that monitors for threats and data breaches outside your network on the surface, deep and Dark Web that are specific to your business.

## THE NEED FOR DRP

- Increased cyber threats
- Expanding digital footprint
- Compliance requirements

## The problem we solve

## Threats DRP can help you mitigate

- Fraud
- Phishing
- VIP targeting
- Attack planning
- Supply chain attacks
- Brand impersonation
- Unauthorised access
- Business email compromise

## Helping compliance and improving maturity

- NCSC framework - addressing principles in each objective
- NIST maturity model - support at every level
- ISO 27001 Threat Intelligence requirement support
